

SERVICE CHARGES AND PAYMENT TERMS

The pricing and payment terms for RegenMed Products and Services are provided below. [Standard Legal Definitions](#) are deemed incorporated herein. Final pricing, terms and conditions are as specified in a binding Master Services Agreement, Authorized Amendment, Statement of Work or other document executed by the Company and a Client.

A Circle

A Circle is a group of physicians generating clinically and statistically significant datasets based on a single Observational Protocol (OP). Most OPs address a single (i) anatomical region, (ii) pathology, (iii) treatment protocol, and (iv) standardized outcomes measure. Circles Datasets are based on a patented, closed platform which ensures compliance with HIPAA, GDPR, Part 11, and Good Clinical Practice. They are free of data manipulation algorithms, critical gaps, AI hallucinations, unvalidatable data, and other “big data” artifacts. Circles Datasets are copyrightable, with clear ownership rights.
